

# Bill Warren

Painting Service

## School Works Program

Our Schools Works Program is a painting and maintenance plan specifically tailored for teaching institutions and undertaken during school holiday and semester breaks according to the institution's priorities.

By identifying the type, the cost and the scale of the works to be undertaken, a program can be broken up into bite-sized segments which can be approved, budgeted for and scheduled by committees well ahead of execution. By programming the works in such a way, the availability of our qualified painters can be assured to guarantee completion prior to the new semester starting date.

## ANALYSIS AND PLANNING

Our Work Managers are experienced in helping the institution's principal and/or delegated Officer in the analysis, timing and budgeting of maintenance needs. Typically, as areas are identified (classrooms, libraries, halls, food areas, play equipment and infrastructure etc.), planning and coordination enables the earmarking of teams required to complete the task/s within the holiday period and to ensure the prompt ordering of materials.

## PROFESSIONALISM

Bill warren Painting Services embraces the International standards ISO14001 and ISO18001 for Environmental Management Systems and Occupational Health and Safety Systems. As a result we only use materials which are both durable and low toxicity. We also ensure:

- The use materials which are both durable and of low toxicity
- The removal and treatment of waste waters at our Dulux Envirowash System;
- The removal and recycling of all solvents to our in-house Turbinaire recycling and purifying system;
- The use of ventilators when painting in enclosed areas;
- Certified and tagged electrical equipment according to Australian Standards and NT WorkSafe;
- The provision of Material Safety Data Sheets (MSDS) for paint products to be used for approval by school and parent committees
- Daily clean up of site by a dedicated cleaning team.

## HI TECH SPRAYING

Our maintenance programs often incorporate non-structural assets such as furniture and fixtures. By restoring or renovating these moveable objects Bill Warren Painting Services really can help reduce costs. By removing these fixtures and furniture from site at the end of semester to our warehouse we can apply an as-new durable spray finish using our high-tech Arden Spray Booth Facility. There is almost no limit to what can be coated;

- Doors & Joinery cupboards;
- Desks & Shelving;
- Louvres & Fans;
- Glass Splashbacks;
- Even boats and trailers!

## MEETING EXPECTATIONS

Whilst our success with School Maintenance Programs stems at least in part from Bill Warrens' longstanding creed of quality and reliability, his knowledge of the painting industry and experience has taught us never to rest on our laurels. Throughout the twelve years of BWPS's involvement in 'Painting in the Territory' we have constantly looked for new methods to improve the way we conduct business and provide for our clients needs.

Through a close and long term collaboration with Dulux we are able to help formulated applications to best suit the particular difficulties in preparation and painting in some of the harshest weather in Australia. In the case of our Schools Works Program this collaboration has gone further to include product formulations for graffiti cleaning and vandal-resistant applications to help combat an ever-growing problem. As the largest provider of quality paint applications in Australia, Dulux has recognised our pursuit of excellence by awarding Bill Warren Painting Services with the coveted Painter of the Year Award NT in 2005, 2006, 2007, 2008 and 2009. Our reputation, as a result, has spread throughout the painting industry at a National Level and in doing so has helped reduce the 'cowboy' image often associated with Top End tradesmen.

## QUALITY AND RELIABILITY

Bill Warren Painting Services is fortunate enough to have grown into a large enough company so that no job is too big or too small. We pride ourselves in the provision of all aspects of painting and decorating solutions to all regions of the Northern Territory. And our painters genuinely enjoy the opportunities to work in remote and sensitive regions of the country.

So if your institution is considering a much-needed painting project, then think about entrusting your resources to Bill Warren Painting Services – the Dulux Accredited Painter of the Year NT for the fifth year running.
